I believe tenants rights are human rights.
As the tech capital of the nation, it is our responsibility to show that money is not our interest, and that the communities, families, and inhabitants of San Jose are our corner stone.

I urge you all to take action in the right direction

Thank you

A. Mejia

As a resident of San Jose, CA and a renter, I know how hard is to pay high rents, but also if you already have a place to be able to keep it. this is why I support the RENTERS RIGHTS. I will like to see this changes, because as right now I am been a victim of this situation, that has me in fear to think that I won't be able to find a safe, stable, and secure place for myself and children. Please support this project and believe that our people deserve to live in peace. Thank You.

This is all he can afford.

My partner lives in San Jose on the Eastside in a converted garage. He recently was involved in a hit and run that has left him disabled for at least the next 6 months. The living situation he is in is not ADA accessible for a wheelchair & he cannot move home. His options are limited — stay in a rehab facility for $9000/month, move into a home-turned-assisted living situation / the assisted living owner's own home for $4,000 - $6,000. It is not just the living situations people are in. Please provide affordable, accessible, safe, secure housing for my partner & our communities

Once on 3/25/17 I received a notice of my Rent increase of $100 a month starting in June. I called Ambrose and told him how unfair it was. He came back to me stating that we had to due to the increase of PG&E. I stated that we all work and there was no way we could run up the bill that high. (shared w/ back house) I reminded him that the back tenants were running a business w/o a license and due to the Co. name of "STUNTY MONKEY 420" that maybe they are selling drugs. Next day I received a 60 day notice to terminate tenancy.

Since it is hard to living in Bay Area, especially we only can earn a certain amount of income, and we're paying a lot out of our income. Moreover, we, the tenants not only ~~do~~ obey the rule from landlord, but also, we sometimes just kick out by landlord without any reason. We are students and focus on studying, so mostly, we're always lock ourself in a small space, high payment room.

I Support renter's right's because I belive it's a just cause. I've been a renter for the least 4 years and I've seen the rent price go up each year. I often wonder if the cause is not just because housing is getting expensive in general but maybe because they want to ~~dis~~ have us leave, indirectly kicking us out, because they don't want us anymore. To have so little control over a matter as basic as a roof over your head is ~~not only~~ very scary. There should be a policy in place to protect renters from unfair evictions, and uncontrolable raise in rents.

Reason why I agree with this petition is because it is unlawful & unfair to tenants who have lived in their homes for "X" amount of years & are being evicted or are experiencing an inflation in their rent prices. Personally I have experienced inflation the past 2 years due to the "Tech" companies coming up in Silicon Valley. Not everyone in the San Jose area makes an avg. salary of 90k + a year to afford the inflation. Other alternatives should come into play such as an increase in minimum wage or other places to live which are affordable. AKA Affordable Housing Act.

Dear San Jose Mayor and Councilmembers,

I support RENTERS RIGHTS:

- No rent increases higher than the cost of living.
- No retaliation against tenants
- End unfair evictions for no cause and no reason
- Stop displacement of tenants and save rent controlled apartments
- Set up a rent registry to make landlords obey the law

My phone number is (408) 627-2159, my e-mail address is Natalya.Bagieva@Gmail.com
I am concern about anual increasement in rent because I had different finansial situation last year, however this year I becamed disabled and don't make enough money anymore so I request to review Law re: percentage of rent increasement in every single individual situation.
And go and make true and fair desision.

Natalya.

I think the issue of renter's rights is a topic of huge discussion especially here in San Jose. I currently work in San Jose for a nonprofit and have considered moving here, however the rent here is really high which has impacted my decision to live here. Not only that, but through the organization that I work with I have came in contact with a lot of San Jose families that have faced homeleness due to an increase in rent, immediat evictions, etc. Some of the families that I work with also live in really small homes and tend to be overcrowded.

I support Renter's Rights reasons above because I myself have been a victim of unjust eviction more than once. At a young age, my family was forced to move out because our apartment was the oldest and it wasn't renovated. The property owner wanted to remodel it and raise the rent. So young and unaware of why I had to leave the apartment where I grew up in, I had to throw away almost all of my belongings. I couldn't keep that much because we had to fit all of belongings in one little car. I had to live away from my parents for one year because I still had to finish my school year. My whole life was impacted by this housing issue. I believe I'm not the only one who has gone through a situation like this which is why it is important for you to be considerate and compassionate toward these victims like me. I am currently being evicted again and rent is an issue for my family. I'm a college student studying at De Anza college and the leader of De Anza Renter's Rights. I have to balance work (a minimum wage job), school work and financial issues. I live with my family because I want to help pay rent and someday buy a house of our own. But I can't do this until other people have a place to live too. Please save our rent controlled apartments and stop this landlord retaliation against tenants so that these tenants don't have to live in fear of living on the streets.

My experience here in san Jose has be about 60/40. when first moving to San Jose I witnessed how expensive everything was. being here for about 4 months now since September I had to stay at a youth shelter until I turned 25 yrs old. having a full-time Job I tried saving up enough money to sustain a one bed-room or studio Apts. I now am renting a room for $1185 a month and cannot fully pay rent. The problem with renting a room or renting a house is not fair having to live on rent to others just to make rent and have a little bit of luxury or privacy. Coming from a state where having one Job is all you need to live with comfort. Rent should be lowered to a more reasonable price. The majority of people living in San Jose are homeless not because it was their choice but because They couldn't make rent. [redacted] Too many people fall victim.

I rented an apartment with 2 of my friends. We lived on Lucretia Ave at Summerwind Apartments. The beginning was horrible and the apartment owners did not take care of the issues we had going on inside the apartment. We had roach infestation and bed bug infestation. We had to live with these issues for 2 years. All our items and belongins were infested. They sent someone 4 times (bug exterminator) and they could not get rid of it. They simply told us there is nothing they could do. On top of that they charged us an extra 400$ on our rent. They said they would go higher. They took our deposit and asked for $1,600 more when we moved out. They asked us not to write a bad review. We had to go to small claims court.

Renters are the most vulnerable citizens. Often, in San Jose, they must pay the greater part of their income for rent, and certainly do not have the means to retain legal representation to protect their rights. The city + County have an ethical & moral responsibility to protect these vulnerable citizen, who are an essential part of the city.

My experience in Mt. View in 2014 April with owners Klitterman, who owned the property at 91 Church St. Mt. View, was just terrible. I wasn't the only one. At least 3/4 people in the complex received the same treatment in ~~retaliation~~ bad treatment to their complex as the city was turned ~~the~~ for many reasons. Their lack of upkeep brought the City of Mt. View to investigate the premises. The owners blamed me and another lady to be evicted. I am a student at De Anza college and have been learning about and experiencing the rising rents in my home town of San Jose. As much as I would like to stay in the bay area I feel that I will be unable to support myself in todays competitive housing market. I wonder if there will be a place for students to live during their schooling? I have moved around 16 times and my goal in the future is to have a stable home, but if landlords continue to evict residents with no cause, I can't see how my dream of a stable home is possible with todays unfair retaliation against tenants.

I was born and raised in San Jose, a 7th generation in the South Bay. We've seen many changes in the city, and the best has been the growing diversity and transformation from a bedroom community to a thriving modern city. The only way to ensure that the people who built this wonderful city is to address the housing crisis so that we can stay.

The rent in San Jose should not be increased because the students and minimum wage workers are working hard to pay the rent. Increasing it is going to bring more pressure and affect the current living condition of lower class people and students.

- lessen the fine print that tenants may not fully understand.
- Let's have better funding options to pay for housing
- poor quality fitness centers w/ ~~in conven~~ inconvenient hours should not be a reason to raise rent prices

With the High cost of Rent in the South Bay Area, Renters should not be evicted for no cause or Reason, Nor Should they be displaced from Rent controlled Apartments. Often times these wrongfully evicted families find it difficult to find Affordable Homes.

I'm currently surviving due to the decency of my landlord; however, I'm active for the sake of many others that are struggling in this area due to all of the above. I lost 5 neighbors just in my court last year due to the outrageous rent increases & know of those that were evicted due to no fault of thier own, but to greatly increase the rent for the tenants to follow.

I believe that renters have the right to know about their status. In hard times, it is not right to evict renters without reason. Everyone should be able to keep their roof over their heads and feel secure

It's not fair. It's not right. It's not OK.
If people cannot afford to live in San Jose where are they going to live?
We need to help our community and do what we can to keep people from becoming homeless.

I believe no one should be evicted from their home for no reason. I also believe that rent control is extremely important in this city. San Jose has a rich culture. Displacing residents out of the city, has no benefit to the City of San Jose.

I believe no one should live in poor conditions and pay such high rent. From my own experience me and my family of five lived in such poor housing environment. The old apartment was filled with roaches and my parents had to pay such high rent. Luckily we moved, but the people and friends we left behind are still dealing with the poor lifestyle.
